

# Coconut Crab Class

March 2023

In Literacy Classes we have read *Animal Farm* together and explored the historical and political context of the novel, especially its links with the Russian Revolution and Stalinist Russia.

In Mathematics we have been studying mainly geometry but Simon has also done some assessment tests aimed at students of his age. These show he is a gifted mathematician.

In the afternoon we join with Snow Monkey class on our IPC unit, Islands. Simon has created a model of his own island as well as designing its flag and creating its laws. He has also produced his own tropical island drink.
