

COCONUT CRAB CLASS

The main text we have used in April has been 'Holes' by Louis Sachar and this has led to a number of creative writing activities. We have also done reading comprehensions, grammar exercises and spelling tests. In Mathematics the student is nearing the end of the Maths No Problem 6B Workbook. He has completed the units on Position and Movement and Graphs and Averages. He is now working through the end of year revision. In Science he is currently studying the properties of solids, liquids and gases. In IPC he has learned about volcanoes as part of the Active Planet unit, which includes a study in depth of the destruction of Pompeii in AD79.
