

Safari Class

October 2022

The First Grade Safari Class kicked off this school year with the international curriculum unit called 'Our World'. During the months of September and October, we spent our time observing the environment we are living in and thought of sustainable ways to celebrate the beauty of nature. We made art pieces inspired by the well-renowned British artist, Andy Goldsworthy. We made bird feeders and hung them outside our school building and enjoyed the sight as birds savoured these delicious treats.
