

In *IPC* we have begun our final topic of the year which is called ACTIVE PLANET. We have made our own volcanoes and used vinegar and bicarbonate of soda to recreate lava flows. We have been learning about Pompeii and sorting out statements into true and false categories.

In *Literacy* we have been reading THE DAY NO ONE WAS ANGRY by Toon Tellegen and finding out how different animals deal with their anger. Next we will be writing our own stories based on ideas from this book.

Snow Monkeys continue to make excellent progress in *Maths*. In April, we have been learning our times tables, solving word problems and counting in 100s.

Now that the weather has improved everybody in the school is practising their running in preparation for *Sports Day* in May.

# Snow MONKEY YEAR 3 CLASS
